Welcome back! We hope you all had a wonderful holiday and are ready for a busy term.

News - Free choice

The children will be assessed on their presentation of News in Week 3. The topic is related to the HSIE/ Science unit currently being studied. We will send home a plan so you can help your child plan for this task. This is a talking task not a reading task so it would be helpful if the children practise telling their news at home. Children may use palm cards or any other props that will support their presentation. The palm cards should contain key words and phrases, not sentences which need to be read word for word. Things to aim for are; a clear voice, eye contact with the audience, a smile and interesting ideas told in a sequence.

The children are to bring one of the following food items to have during class time.
1 piece of fresh fruit, 1 serve of fresh vegetables, A small amount of dried fruit (no nuts)

Parents, please check that your child has enough supplies to begin the term, ie, a labelled hat or cap, at least two lead pencils, an eraser, a sharpener with catcher and a fresh gluestick. Many gluesticks were running out by the end of last term.

Have a lovely first week of Term 4!
